### CHENNAI :

Chennai, the capital city of Indian state Tamil Nadu is situated on the Coromandel Coast of the Bay of Bengal. It has played a very crucial role in the traditional, historical and academic growth of the country, representing the different elements of the highest variety of the Dravidian civilization.

Today, it is the 4th largest city of India and is also the leading commercial center of South India. The credit of the booming economy of the city goes to the leading industries including automobile, software services, petrochemicals, financial services, textiles and hardware manufacturing. The TIDEL Park of the city is the largest IT Park in Asia; it also houses the corporate offices of leading software companies.

Chennai has number of historical and cultural significant places, including the UNESCO heritage site of Mahabalipuram to visit. It has also got beautiful beaches, important temples and his spiritual centers. The Anna Centenary Library in the city is the largest library in Asia.

Chennai is very well-connected to all the major cities of India as well as overseas. It is also considered as the cultural hub of South India which is famous for its classical dance, music, architecture, sculpture, crafts, etc.

Chennai has a tropical wet and dry climate. The city lies on the thermal equator (106) and is also on the coast, which prevents extreme variation in seasonal temperatures. The hottest part of the year is late May to early June.
